STUDENTS' OPINION: THE QUESTIONNAIRE

STUDENTS' OPINION SURVEY

Approximately at two thirds of both semesters, **it is compulsory for students to answer a survey on the teaching they have received, prior to registering for their exams.**

The students are invited to express their opinion on each course they attended during the semester, and by answering to the survey each student has the possibility to contribute directly to the improvement of the quality of the educational offer.

The results, at various levels of detail, are then shared among the different participants involved in the process, such as the Deans of the Schools, the Programme Boards, the Joint Students-Professors Committees (CPDS), the Department Directors, the University Assessment Commission, and the Academic Senate.

For this reason **it is very important for the students to express their own opinions responsibly in the interest of the entire community of students and professors who attend the University.**

During the final year of the Study Course, students are also asked to give their opinions on:

The entire educational path: the questionnaire is mandatory for the registration to the Bachelor's/Master's final exam, and students express their opinion on aspects concerning the organization of teaching, the specific contents, the structures, the internships, international mobility and the final exam

The student support services: the questionnaire is mandatory for the registration for the first exam of the academic year and concerns only regular students attending the final year of their Study Course. The questions are related to the services offered to the students, such as for example: the admission, the study plan, the exam registration, the fees, the secretariats, the ICT, the library, the food services, the communication

THE QUESTIONNAIRES ARE ANONYMOUS

DATA IS PROCESSED AND USED IN AGGREGATE FORM

UTILITY OF THE QUESTIONNAIRE

THE JOINT STUDENT-PROFESSOR COMMITTEE	THE COURSE OF STUDY
<p>The Joint Student-Professor Committee collects the results of the questionnaire and through constant contact with student representatives carries out careful monitoring, the results of which and the resulting improvement actions are reported annually in a Report available on the School's website. The improvement actions and reports are then presented in the Academic Senate by the Deans of Schools and the University Assessment Commission.</p>	<p>The questionnaire is also fundamental for the Professors of the Study Courses, who have the opportunity to read the honest and sincere opinion of the students. As a result of this, they can improve their educational proposal and the teaching delivery mode. In addition to this, once a year, all the Study Courses are asked to reflect on the educational path also starting from the OPIS results. Student Representatives also participate in this moment, collaborating in order to define possible improvement actions.</p>
	

STUDENT REPRESENTATIVES IN THE JOINT STUDENT-PROFESSOR COMMITTEES AS WELL AS THOSE IN THE STUDY COURSES HAVE ACCESS TO THE SAME DATA DISPLAYED TO THE PROFESSORS

YOU CAN REALLY AFFECT THE QUALITY OF TEACHING AT THE POLITECNICO DI MILANO!!!!
