**POLITECNICO**  
MILANO 1863

## **1. GENERAL INFORMATION**

Politecnico di Milano offers its students the opportunity to take part in the following international study activities:

- International Mobility aimed at obtaining ECTS credits that are an integral part of the programme for the completion of the study cycle, hereafter called **International Mobility for Study purposes**;
- International Mobility with a view to obtaining a Double Degree qualification with the partner and Politecnico di Milano, hereafter called **International Double Degree Mobility**.

The student may perform the following activities overseas:

- A period of study aimed at obtaining ECTS credits that are an integral part of the programme for the completion of the study cycle.
- A thesis research period, possibly linked to a study period as described above. It is the duty of the student selected for a thesis mobility, to verify, with the foreign university for which he/she was selected, the offered possibilities of carrying out thesis work.
- A period of study as described above that also includes a brief internship, of less than 2 months, immediately following the period of study or undertaken in the same period. This type of mobility, called *combined*, will be considered as a period of study.
- A period of thesis research linked to a brief internship, of less than 2 months, immediately following the period of study or undertaken in the same period.

All of the above activities can be performed both "in presence" at the partner's facilities and in *Blended* mode, with "remote" and "in presence" components. **The "in presence" part of the mobility shall have a minimum duration of 2 months for mobility to be eligible and valid.**

International mobility offered by Politecnico di Milano is based on **agreements** established with numerous partner Institutions. Depending on the type of agreement, the following are offered:

- Erasmus mobility for study purposes<sup>1</sup>;
- Non-European mobility for study purposes<sup>2</sup>;

---

<sup>1</sup> Participating in the Erasmus Programme are i) EU countries: Austria, Belgium, Bulgaria, Cyprus, Croatia, Denmark, Estonia, Finland, France, Germany, Greece, Ireland, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Czech Republic, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Hungary, ii) countries of the European Economic Area: Iceland, Liechtenstein and Norway, and ii) candidate countries (Turkey and former Yugoslav Republic of Macedonia).

<sup>2</sup> All mobility in countries not included in point 1 above shall be deemed to be non-European mobility. Mobility to Switzerland and the United Kingdom is considered non-European mobility.

**POLITECNICO**  
MILANO 1863

- Double Degree mobility with European partner Universities participating in the Erasmus programme and with partner Universities in non-European countries.

With this Call, all mobility opportunities still available after the first Call, for the a.y. 2024/2025 and any new mobility opportunities whose agreement has been signed in the meantime will be called.

In any case, only those Partner Universities whose deadlines for the management of exchange students are compatible with the timing of selection of this Call are called.

### **1.1 CALL TARGET**

This Call is addressed to all students enrolled:

- on Laurea (equivalent to Bachelor of Science) courses
- on Laurea Magistrale (equivalent to Master of Science) courses
- on Single Courses

of the School of Design, who had not participated in the First Call for International Mobility for a.y. 2024/2025.

In the event of simultaneous enrolment in two study programmes, it will not be possible to apply for double degree mobility.

Students enrolled in two study programmes at the Politecnico di Milano will only be able to apply for Mobility for Study, for one or the other study programmes as chosen by the candidate.

Students enrolled at the same time in a study programme at the Politecnico di Milano and at another Italian or foreign University will only be able to apply for Mobility for Study, for the study programmes at the Politecnico di Milano.

Students who had participated in the first Call for International Mobility for a.y. 2024/2025 and who had confirmed a Double Degree or a Short-term Mobility cannot participate in the Second Call.

Students who had participated in the First Call for International Mobility for a.y. 2024/2025 and who were selected for a Double Degree Mobility who rejected the mobility, or did not respond to the assignment, cannot apply for the Double Degree Mobility within the Second Call

Students who had participated in the First Call for International Mobility for a.y. 2024/2025 and who were selected for an International Mobility for Study who rejected the mobility, or did not respond to the assignment, cannot apply for the International Mobility for Study within the Second Call.

Upon completion of the selection process for the First Call, applicants may be:

- **Ineligible**
- **Eligible** but not selected due to lack of available places
- **Confirmed:** selected, and have confirmed mobility

**POLITECNICO**  
MILANO 1863

- **Withdrawn:** selected but have turned down mobility, or have not responded to the assignment within the Call deadline

### **1.2 RIGHTS AND DUTIES OF STUDENTS IN MOBILITY**

In accordance with interinstitutional agreements signed by Politecnico di Milano and partner Universities, valid for the a.y. 2024/2025, the international mobility student will be entitled to:

- obtain the services offered to students regularly enrolled at the partner Institution without having to pay tuition fees;
- attend courses at the partner Institution and take the relevant exams useful for obtaining the qualification at Politecnico di Milano;
- receive full academic recognition for activities agreed upon and successfully completed during the mobility period.

To take part in International Mobility for Study, students shall:

1. at the time of departure, be enrolled at least in the second year of a Laurea course at Politecnico di Milano, or have the status "students about to complete studies" (cf. art. 11 of the Regulation on student grants);
2. be enrolled in only one study programme of first or second level, in case of Double Degree mobility;
3. register for the a.y. 2024/2025, if requested, within the set deadline;
4. have fulfilled any additional educational requirements (OFA TEST or ENG);
5. regularly pay the student contribution due for the a.y. 2024/2025 to Politecnico di Milano. Students are not required to pay fees at the host University. The host Institution may however request payment of a small sum in order to cover insurance costs, membership of student associations or the use of different materials (photocopies, laboratory products, etc.), in an identical way to that of local students;
6. submit, if required, the study plan of the Politecnico di Milano, where there must be included those courses that are subject to validation at the end of mobility;
7. sign before departure and adhere to the Mobility Agreement governing relations between the student and Politecnico di Milano during his/her stay abroad and submit all the required documentation;
8. comply with the regulations and the academic calendar of the host University;
9. carry out the activities agreed upon with the host University, taking the relevant exams.

**POLITECNICO**  
MILANO 1863

### **1.3 MOBILITY PROGRAMMES**

#### **▶ dl 1.3.1 INTERNATIONAL DOUBLE DEGREE MOBILITY**

Double Degree programmes enable students of Politecnico di Milano to spend a period of study abroad and attend courses aimed at obtaining both the Italian qualification and the corresponding foreign qualification.

The participation conditions vary depending on the agreement with the partner University, the year of attendance and academic requirements. In most cases, such programmes require:

- attendance from 1 to 2 academic years at a partner University;
- up to 120 ECTS credits (comparable with Italian CFU credits), of which up to 60 recognised by Politecnico di Milano;
- a minimum of 60 ECTS credits at Politecnico di Milano;
- defending the Degree thesis at Politecnico di Milano and at the partner University, where required.

It is noted that the duration of mobility and number of available places depend on the agreement with the partner University.

For more details on each agreement, please refer to the "Map of partner Universities and Mobility Agreements", available at the link <https://www.polimi.it/en/campuses-and-services/international-mobility/international-mobility>, giving details on:

- the year's requirements for the applicant. It is also noted that, solely for the purposes of this Call, students enrolled on Master's Degree courses in the second semester of the a.y. 2022/2023 will be considered as students enrolled in the first year. Students enrolled in Master Degree Programme in the second semester of a.y. 2023/2024, or enrolled in single courses, will have access only to Double Degree programmes that provide a mobility scheme that requires the acquisition of minimum 30 CFU at the Politecnico di Milano before departure,
- average grade requirements (the total weighted average of the entire university course)
- the double degree mobility scheme,
- available places and the Study Programmes that have access to them,
- links to the web pages of the partner Institution and to the part dedicated to exchange students.

**The minimum requirements may be reviewed by the mobility host Institution at the time of application and admission to courses.**

Please note that for some Double Degree partner universities the mobility starts in the first semester. This information can be found in the application tool, in the notes regarding the university concerned.

**POLITECNICO**  
MILANO 1863

►ms

### **1.3.2 INTERNATIONAL MOBILITY FOR STUDY**

International Mobility Programmes for Study give the students of Politecnico di Milano the opportunity to spend a period of study overseas and attend courses aimed at obtaining ECTS credits that will be recognised in their academic career.

The duration of Mobility for Study and **number of available places depend on the agreement with the partner Institution**. The duration of mobility shall not in any case be less than **2 months** or greater than **12 months**.

**It is stressed that Mobility for Study generally lasts for one semester. Any extension shall be agreed between Politecnico di Milano and the host Institution.**

Mobility within the Erasmus Programme shall end before 30 September 2025.

Non-European mobility shall end before 31 December 2025, and may not commence beyond 30 June 2025.

#### **Warning! The rule for the first semester of the Master's Degree**

Students who at the time of applying are enrolled on the third year of a three-year Laurea course or on Single Courses and who enrol in a Laurea Magistrale course in the second semester of the a. y. 2023/2024 will be able to carry out Mobility in the first and the second semester of the a.y. 2024/2025.

Students who at the time of applying are enrolled on the third year of a three-year Laurea course or on Single Courses and who enrol in a Laurea Magistrale course in the first semester of the a. y. 2024/2025, will be able to carry out international mobility only in the second half of the same year.

Students who at the time of applying are enrolled on the third year of a three-year Laurea course and who enrol in a Laurea Magistrale course in the second semester of the a. y. 2024/2025, will not be able to carry out international mobility in the semester of matriculation.

Students who at the time of applying are enrolled on the third year of a three-year Laurea course and who will not graduate in time to enrol on a Laurea Magistrale course in the a. y. 2024/2025, will be able to carry out international mobility in the first and the second semester of the same year, as long as they are enrolled on a three-year Laurea course.

### **ERASMUS KEY ACTION 171 PROGRAMME - NON-EUROPEAN COUNTRIES**

Students who in a.y. 2024/2025 will be enrolled in one of the Laurea Magistrale study programmes of the School of Design have the opportunity to apply for the KA 171 programme.

KA171 International Credit Mobility, operating under the Erasmus+ Programme, offers students the opportunity to experience periods of mobility in non-European Countries.

Erasmus+ KA171 mobility scheduled for the a.y. 2024/2025 offers specific destinations and grants. The table below lists the mobility of specific approved projects, with an indication of the duration and related grants. To see which Laurea Magistrale programmes are valid for the mobility agreements listed below, please refer to the "Map of partner Universities and Mobility Agreements".

Students wishing to apply will have the opportunity to enter one or more KA 171 preferences, where available, among the 6 possible preferences.

The minimum admissible duration of physical mobility to receive the grant is 2 months.

<b>Destination Country</b>	<b>Partner University</b>	<b>n° of participants</b>	<b>Total duration (full months) per participant</b>	<b>Max. travel Grant per participant</b>	<b>Max. mobility support per participant</b>
Australia	Royal Melbourne Institute of Technology	1	5	1500 €	3500 €

The amounts indicated in the table are for each participant.

## **2. CHOICE OF DESTINATION**

For a valid and effective application, the student shall:

- Consult the "Map of partner Universities and Mobility Agreements", where for each agreement details are given on available places and eligible study programmes, as well as references to the web pages of partner Institutions dedicated to exchange students, if present.
- Check the websites of foreign universities for the educational offer and the language of delivery of the offered courses, the academic calendar, the language requirements, the application submission deadlines etc.
- Check additional requirements indicated in the Regulations of his/her study programme (see art. 12 of the Regulations) available on the University website, and/or the information/rules published on the websites of the School or programme.

**Please Note:** Students not having Italian citizenship cannot carry out a period of study abroad in the Country of first citizenship, as declared at the moment of enrolment at

**POLITECNICO**  
MILANO 1863

Politecnico di Milano, or in the Country of academic origin.

**Please Note:** Actual mobility is subject to the selected student being accepted by the host Institution, which can always define mobility constraints and limitations.

It is also noted that some proposed mobility places will be confirmed only after the finalisation of agreements still being negotiated.

It is also pointed out that the educational offer of host Universities might be subject to changes that would not allow the proposed exchange to go through.

**Warning!** Many host Institutions require, among exchange admission requirements, knowledge of a language, as confirmed by official certification. The applying student should check on the website of each of the universities any exchange constraints and prepare the necessary documentation to prove the required linguistic skills within the deadlines set by the Institutions.

### **3. SUBMISSION OF APPLICATION**

Students interested in applying for a Double Degree Mobility programme and/or International Mobility for Study must fill out the online application tool via the “International Mobility for Study” tool, available from personalised Online Services **from 18 April 2024 to 9 May 2024 (midday)**. **The closing date for applications is compulsory. No application can be modified or completed beyond midday of 9 May.**

**Students wishing to apply for both the Double Degree mobility and International Mobility for Study will have to fill out two separate applications online.**

**Students who submit two applications must attach just one portfolio and two different profiles.**

The requested annexes should be uploaded online in PDF format according to the specifications indicated below:

- Portfolio – maximum size 10 MB, with images of maximum size 300 dpi
- Profile: Curriculum vitae and motivation letter in English – maximum size 2 MB.

**When applying for International Double Degree Mobility, the student will be able to select up to 3 preferences.**

**When applying for International Mobility for Study, the student will be able to select up to 6 preferences.**

**Students who have not uploaded portfolio and profile and/or have not expressed at least one preference will be considered as not assessable, and consequently excluded from the selections.**

For each of the selected institutions, the student will be able to see, when applying, the number of places available for the Second Call a.y. 2024/2025, excluding places already

**POLITECNICO**  
MILANO 1863

assigned with the first Call, and the number of preferences expressed by applicants for the Calls a.y. 2023/2024 where available.

**Please Note:** students enrolled on Laurea Magistrale courses who have obtained a Laurea (or equivalent qualification) at an Italian University other than Politecnico di Milano will have to self-certify, in the ad hoc section of the online application, the weighted average of grades for exams taken, for which the top value is 30, and the very first year of matriculation (the first year of enrolment on any Laurea course, even if different from that for which the qualification was obtained). Total ECTS credits obtained in the first cycle will in any case be considered equal to 180. These students shall also self-certify any participation in mobility programmes for study, having a minimum duration of 2 months and carried out during the previous university course.

Any self-certified data that does not comply with requirements will result in the applicant being excluded from the selection process. If, following checks, self-certified data prove to be false or untruthful, the applicant will forfeit the benefits obtained further to the untruthful declaration, pursuant to art. 75 of Presidential Decree 445/2000.

Students who at the time of application are enrolled in the third year of a three-year Laurea course or on a single course will be asked to **indicate the Study Programme they intend to attend in the a.y. 2024/2025**. Selections will be effected on the basis of the declarations made by the student in the application phase. If the actual programme enrolled on is different from that indicated in the application, mobility may not take place.

Students with a non-Italian qualification enrolled on the first year of a Laurea Magistrale course will be able to make an international mobility application only after completing the enrolment procedures: <https://www.polimi.it/en/international-prospective-students/laurea-magistrale-programmes-equivalent-to-master-of-science/application-procedures/after-admission/prepare-documents-for-the-enrolment>

#### **4. EVALUATION OF APPLICANTS: GRADE**

The student's academic record will be assessed by applying the **grade formula** function. The value generated by the formula, i.e. the **grade**, considers the total weighted average, that is, the weighted average of the entire university career, ECTS and academic career time. If students have the same weighted average and ECTS, the formula therefore gives greater chances to students who have achieved the same results in a shorter time frame.

**The grade is calculated automatically, during the selection phase, with data from the student's record as of 30 April 2024.**

The grade is calculated as follows:

$$Media\ totale + 0.1 \left( \frac{CFU_{1^{\circ}livello} + CFU_{2^{\circ}livello}}{Anni\ di\ immatricolazione\ totali - 0.5} - 30 \right)$$

where

$$Media\ totale = \frac{CFU_{1^{\circ}livello} \cdot Media_{1^{\circ}livello} + CFU_{2^{\circ}livello} \cdot Media_{2^{\circ}livello}}{CFU_{1^{\circ}livello} + CFU_{2^{\circ}livello}}$$

"Anni di immatricolazione totali" (Total enrolment years) means all the years that have passed since the very first matriculation to any Laurea programme, even if different from that for which the qualification was actually obtained. The years when studies have been put on hold are therefore also included.

A bonus of 3 points will be added to the grade for International Mobility for Study applicants who:

- have never experienced international mobility for study at a foreign partner University, either remotely or in presence, with Politecnico di Milano or with another Italian University;
- have turned down by midday of 30.04.2024 international mobility to be undertaken in the second semester of the a.y. 2023/2024, by accessing the online services "International Mobility for Study" and clicking on "My mobility" (top left) and on the appropriate WITHDRAW button.

A Double Degree Mobility applicant will still receive a bonus of 3 points on the value of the grade, for the Double Degree application only, regardless of previous mobility experiences.

A three-year Laurea degree obtained at foreign universities is in any case considered as international mobility.

In the case of simultaneous enrolment in two Bachelor's or Master's degree programmes, the results obtained by the student in relation to the study programme for which he has applied will be taken into account for the purpose of calculating the Grade.

The grade may therefore reach a maximum value of 33 points + 3 bonus points.

For the purposes of calculating the grade of students enrolled on Laurea Magistrale courses

with Laurea (or equivalent degree) obtained at an Italian University other than Politecnico di Milano and for the purposes of assigning the 3 bonus points, self-certified data provided in the application phase will be used, considering a total number of ECTS credits of 180.

For the purposes of calculating the grade of students enrolled on a three-year Laurea course, with another Laurea (or equivalent title) already obtained and recognition of previous university studies, the year of first matriculation of the previous studies will be considered as the very first year of matriculation, but the weighted average and ECTS credits will refer only to the current three-year course.

Applicants in possession of non-Italian qualifications enrolled on the first year of a Laurea Magistrale course will be assigned a value based on the average obtained in the University of origin converted on a scale out of thirty-three.

For applicants in possession of a non-Italian academic degree enrolled in a year following the first of a Laurea Magistrale course, the grade will be calculated, for the part referring to the first level, considering the average obtained in the University of origin converted on a scale out of thirty, total ECTS credits of 180 and a total "level one" time of 3 years. For the part relating to "level two", the data present in the university record at 30.04.2024 will be considered.

For students with equal grade, priority will be given in the ranking to the student with the higher average. In the event the average is also equal, priority will be given to the younger student.

## **5. SELECTION AND ASSIGNMENT OF MOBILITY DESTINATION**

Each selected student can be assigned only one mobility place, exclusively in the a.y. 2024/2025.

Selections for International Double Degree Mobility will be conducted first. Only upon completion of the final assignment phase for international Double Degree mobility will applicants for International Mobility for Study be evaluated and selected.

Students applying for both International Double Degree Mobility and International Mobility for Study will not be evaluated for the latter if they have confirmed acceptance of Double Degree mobility.

## **INTERNATIONAL DOUBLE DEGREE MOBILITY**

### **5.1 SELECTION PROCESS FOR INTERNATIONAL DOUBLE DEGREE MOBILITY**

Applicants will be evaluated by the Promoter of the first preference expressed, based on a score made up of:

- Grade (max. 33 points) + 3 bonus points (cf. art. 4)
- Portfolio (max 10 points)
- Profile (max 10 points).
- Eligibility for the first preference (0 to 3 points)

- Mandatory interview, possibly remotely (max 10 points). Failure to attend the interview will result in the applicant not being eligible for Double Degree mobility, and consequently being excluded from the rankings. The dates of interviews will be published online, on the Call page, by 30 April 2024. Procedures and times will be communicated to applicants close to the dates indicated.

The total score of applicants may thus reach a maximum of 69 points, for the first preference only, and a maximum of 66 for all other preferences after the first.

The student will then have a score with which to compete for selection for his/her first preference.

The score with which he/she will compete for other preferences expressed will not take into account the assessment of eligibility (0 and 3 points) for the first preference.

If the Promoter of first preference is unavailable, the portfolio, profile and eligibility for the first preference expressed will be assessed by a Panel specifically appointed by the School. The same Panel will conduct the interview with the student.

The Promoters of the first expressed preference, or the Panel, may also indicate the applicant not eligible for mobility. In this case, the applicant will automatically be excluded from selection for International Double Degree Mobility.

All Promoters, for their own Institutions/Schools only, may also decide on the student's ineligibility for individual preferences expressed.

## **5.2 INTERNATIONAL DOUBLE DEGREE MOBILITY ASSIGNMENTS**

Each applicant must view the results of their application via the "International Mobility for Study" online tool, according to the following timetable:

Results first assignment	23 May 2024
Acceptance by the student	From 23 to 28 May 2024, by midday
Results second assignment	30 May 2024
Acceptance by the student	From 30 May to 3 June 2024, by midday

Instructions on how to confirm the assigned destination are given in the online tool and published online on the dedicated webpage: <https://www.polimi.it/en/campuses-and-services/international-mobility/study-abroad/the-call>

The reading of this Call and of the timetable for the selection process contained herein shall count as notification to applicants.

**POLITECNICO**  
MILANO 1863

The selected student shall in any case give his/her decision (I accept the assigned destination, I reject it, I'll wait for the next assignment if possible) by clicking on the link "What do you want to do?" next to the name of the foreign university for which the student is selected (highlighted in green).

The selected student who turns down the placement or does not give his decision within the set deadline for the assignment for which he/she is selected will automatically be excluded from subsequent selection phases and from International Double Degree Mobility for the a.y. 2024/2025.

### **First assignment**

#### STUDENTS SELECTED FOR ONE OF THE FIRST 2 PREFERENCES:

The student selected for any of the first 2 preferences will have to accept or turn down the assigned destination.

#### STUDENTS SELECTED FOR THE 3RD PREFERENCE:

The student selected for the 3rd preference may:

- accept the assigned destination, which is thus definitively confirmed.
- turn down the assigned destination, and consequently withdraw from Double Degree mobility for the a.y. 2024/2025.
- ask to wait for the second assignment phase, where he/she might be selected for a better preference, or, if this is not possible, be placed again for the preference already assigned with the first placement.

### **Second assignment**

With the second assignment phase, the student selected for any of the expressed preferences will have to accept or turn down the assigned destination.

## **►ms INTERNATIONAL MOBILITY FOR STUDY**

### **5.3 SELECTION PROCESS FOR INTERNATIONAL MOBILITY FOR STUDY**

All students who have confirmed a Double Degree International Mobility will be excluded from the selection process for the **International Mobility for Study**.

Applicants will be evaluated by the Promoter of the first preference expressed, based on a score made up of:

- Grade (max. 33 points) + 3 bonus points (cf. art. 4)
- Portfolio (max 10 points)
- Profile (max 10 points).
- Eligibility for the first preference (0 to 3 points)

**POLITECNICO**  
MILANO 1863

The total score of applicants may thus reach a maximum of 59 points, for the first preference only, and a maximum of 56 for all other preferences after the first.

The student will then have a score with which to compete for selection for his/her first preference.

The score with which he/she will compete for other preferences expressed will not take into account the assessment of eligibility (0 and 3 points) for the first preference.

If the Promoter of first preference is unavailable, the portfolio, profile and eligibility for the first preference expressed will be assessed by a Panel specifically appointed by the School. The same Panel will conduct the interview with the student.

The Promoters of the first expressed preference, or the Panel, may also indicate the applicant not eligible for mobility. In this case, the applicant will automatically be excluded from selection for International Mobility for Study.

All Promoters, for their own Institutions/Schools only, may also decide on the student's ineligibility for individual preferences expressed.

#### **5.4 ASSIGNMENT OF INTERNATIONAL MOBILITY FOR STUDY**

Each applicant must view the results of their application via the "International Mobility for Study" online tool, according to the following timetable:

Results of first assignment	17 June 2024
Acceptance by the student	from 17 to 24 June 2024, by midday
Results of second assignment	27 June 2024
Acceptance by the student	from 27 June to 4 July 2024, by midday

Instructions on how to confirm the assigned destination are given in the online tool and published online on the dedicated webpage: <https://www.polimi.it/en/campuses-and-services/international-mobility/study-abroad/the-call>

The reading of this Call and of the timetable for the selection process contained herein shall count as notification to applicants.

**POLITECNICO**  
MILANO 1863

The selected student shall in any case give his/her decision (I accept the assigned destination, I reject it, I'll wait for the next assignment if possible) by clicking on the link "What do you want to do?" next to the name of the foreign university for which the student is selected (highlighted in green).

To confirm the mobility place highlighted in green, the applicant shall also indicate the activity he/she intends to perform abroad.

The selected student who turns down the placement or does not give his/her decision within the set deadline for the assignment for which he/she is selected will automatically be excluded from subsequent selection phases and from International Mobility for Study for the a.y. 2024/2025.

### **First assignment**

#### STUDENTS SELECTED FOR ONE OF THE FIRST 3 PREFERENCES:

The student selected for any of the first 3 preferences will have to accept or turn down the assigned destination.

#### STUDENTS SELECTED FOR ONE OF THE PREFERENCES BETWEEN 4 AND 6:

The student selected for any of the preferences listed between 4 and 6 may:

- accept the assigned destination, which is thus definitively confirmed.
- turn down the assigned destination, and consequently withdraw from International Mobility for Study for the a.y. 2024/2025.
- ask to wait for the second assignment phase, where he/she might be selected for a better preference, or, if this is not possible, be placed again for the preference already assigned with the first placement.

### **Second assignment**

With the second assignment phase, the student selected for any of the expressed preferences will have to accept or turn down the assigned destination.

## **6. INITIAL PROCEDURES FOR SELECTED AND CONFIRMED STUDENTS**

The International Mobility Unit will inform students who have confirmed mobility of the subsequent procedures necessary to the start of mobility:

- completion of Application Form of the partner Institution according to the methods and timing indicated by the latter;
- definition of the Learning Agreement (study program form) with one's Referee.

## **7. RE-PLACEMENT REQUESTS**

Students selected with the first Call for International Mobility, both for Double Degree and for Study, will be able to request a re-placement for one of the preferences expressed in the application, in the following cases:

- rejection of the Application Form submitted by the student by the host Institution;
- proven impossibility of drawing up a Learning Agreement, endorsed by the mobility Referee
- impossibility of following courses in the host country/Institution due to force majeure. Causes of force majeure are all those unforeseeable and exceptional situations and events that may prevent normal teaching activities or jeopardise the safety and security of the student. Examples of this are major natural disasters (e.g. earthquakes) or the emergence of difficult socio-political or health conditions in the destination Country (please refer to the website <https://www.viaggiasesicuri.it>).

**Under no circumstances will re-placement applications be accepted for failure to attain the language level required by the host Institution.**

Re-placement requests will be evaluated and possibly accepted by the International Mobility Unit, after having consulted mobility Referees.

Students whose re-placement request is accepted will automatically turn down the place already assigned.

A specially appointed Panel, which will meet whenever necessary as from July 2024, will check whether the student can be re-placed in one of the universities previously listed in the application for the Second Call, for the same mobility programme, if available.

## **8. GRANTS**

The Board of Governors of Politecnico di Milano will decide on the criteria, methods and amount of grants by July 2024, based on the sums assigned by the Erasmus National Agency for the a.y. 2024/2025 and on the funding allocated by the Ministry for University and Research to Universities to promote international student mobility in and outside Europe, after having ascertained budgetary constraints. At the same meeting, the Board of Directors will decide on possible criteria for the total or partial refund of the contribution received by the student in mobility, if he/she does not carry out any of the activities provided for by the mobility contract and the Learning Agreement.

Generally speaking, the criteria for defining grants take into account the type of mobility, country of destination and ISEE (household income) bracket of the participant. By way of example, please refer to: <https://www.polimi.it/en/campuses-and-services/international-mobility/study-abroad/after-selection/study-mobility/before-departure>

The student selected for a mobility place in one of the countries that are partners of the Erasmus Programme (cf. note 1 p.3) shall have the *status* of Erasmus student, entailing rights and obligations in accordance with the Charter of the Erasmus student. Erasmus *status* does not necessarily entitle the student to an Erasmus grant.

**POLITECNICO**  
MILANO 1863

The above rules do not apply to Erasmus KA 171 mobility towards Partner (non-European) Countries, for which the provisions of art. 1.3.2 of this Call shall apply.

During the mobility, the student will in any case continue to receive any national/regional study grants or scholarships of which he is a beneficiary. The students receiving the scholarship referred to Legislative Decree no. 68 of 29 March 2012 and the eligible students not receiving the same scholarship may also seek supplementary grants, according to the deadlines of the Call for assignment of Financial Aid Benefits, for scholarships.

To allow a broader participation in International Mobility of students with disabilities or SLDs, there are **special grants that will be based on costs actually incurred, the request for which shall be duly motivated and justified in advance**. Interested students shall submit a regular application for the assignment of special grants within the deadlines and in the manner that will be communicated at a later date.

## **9. INSURANCE COVERAGE**

Politecnico di Milano students undertaking international mobility are covered by an insurance policy for accidents and third-party liability borne by the Politecnico di Milano for claims occurring during educational activities at the host Institution.

With regard to healthcare, the student must have a European Health Insurance Card (EHIC/TEAM) or other insurance scheme/coverage required in the Country of destination.

The Politecnico di Milano student also has the opportunity to enter into a travel insurance policy (EuropAssistance S.p.A.) at subsidised cost. For information please contact: [studenti.politecnico.eura@gmail.com](mailto:studenti.politecnico.eura@gmail.com)

## **10. DATA PROCESSING BRIEFING**

With regard to the processing of personal data, pursuant to art. 13 of EU Regulation 2016/679 of 27 April 2016, please refer to the content in the specific web page <https://www.polimi.it/privacy/>.

## **11. ADMINISTRATIVE OFFICER**

In accordance with the provisions of art. 5 of Law 241 of 7 August 1990, 241, the person in charge of the procedure referred to herein is Dr. Rossella Magni, e-mail: [bando-mobilita@polimi.it](mailto:bando-mobilita@polimi.it)
